MA & PJ BLANCH
ST ANDREWS FARM, ANDREW HILL, BILLINGHURST, WEST SUSSEX , RH14 9JS

We have brought forward today a proportion of our autumn block ready for a spring flush With the remaining herd to calve this September/October before final sale. These cows have been served in the main to red Holstein and british blue sires with a few to our angus sire.

Since I took the herd on at 18 and inherited a group of 50 mainly guernsey and jersey's we have strived to produce a compact hardy grazing animal with the scope to perform in the winter months on maize, silage and cake to yield in the herringbone parlour. In the last 10 years we have started to introduce red Holstein, Viking red and Ayrshire into the herd to elevate yield and a bit of stature.

Our cows are cubicle trained, and reside in a tb4 area never having a case. We monthly record and screen the bulk tank for the usual and are negative. Due to arla contract the herd is quarterly screened for johnes

It is with a heavy heart we have to continue to bring our dairy farming lives to a end in what feels a job yet finished however a small solace shall be in these cows going on.
