**W.F PARSONS & SON**  
**WEST YEOMADON, PYWORTHY, HOLSWORTHY, DEVON. EX22 6SH**

Continuation of Herd Dispersal. For nearly 100 years the Parsons family have milked at West Yeomadon with Andrew taking over the running of the dairy in 1991. In 2006, Andrew's son Mark came home to work on the farm and both Mark and Andrew have farmed in partnership ever since. The herd is run on a grass based, low input system consisting of silage fed in troughs and cake in the parlour. The herd calves all year round and this first consignment consists of the spring and summer calving portion. The breeding policy has always been to produce strong, well-balanced cows with excellent legs and feet which are capable of producing good volumes of high quality milk. The herd is BVD, IBR and Lepto vaccinated and Johnes screened.

The herd is averaging 8219Kgs 4.36%BF 3.43%PTN with a whole herd scc of just cc124.

# First Consignment of the Herd Dispersal Sale of 60 Pedigree Holstein Friesian & Blended Red & White Dairy Cattle

*On behalf of RC & T Martin, Locksbeam,  
Torrington, North Devon. EX38 7EZ*

### Comprising:

- 57 Freshly Calved & In-Milk Cows & Heifers
  - 3 In-Calf Heifers

## Foreword

Due to health circumstances it has been decided to disperse the herd of cows from Locksbeam Farm, Torrington which includes the pedigree registered 'Locksbeam, Golden & Rosegold' prefixes combined with a number of purchased pedigree cattle. Locksbeam Farm was first bought by the Martin family pre World War II, as sitting tenants and has in recent years been farmed by Richard & Tracey Martin and family. The family have a keen interest in Red & White genetics and the herd contains a number of excellent examples of blended Red & Whites. For convenience of sale the cattle will be removed to Holsworthy Livestock Market and will be sold on Wednesday 27th November at 11am.

The herd is CIS recorded and managed on a very simple system. The milk recording was taken on 8<sup>th</sup> November with yields updated from the computer recording on 18<sup>th</sup> November. Grazing is maximised from spring to autumn with the cows still grazing last week. The herd is cubicle housed in the winter months and milked twice a day through a 20:40 herringbone parlour. During winter the cows are fed maize and grass silage via ring feeders in outside yards with only limited cake fed in the parlour.

The sale includes Pedigree Holstein Friesians, blended Red & Whites and Ayrshire cows & heifers from some renowned families and pedigrees. The cows are served to mainly Holstein Friesian sexed semen and a Pedigree Hereford Stock Bull (Starline 1 Carry On) ran with the herd between 1<sup>st</sup> September and early November. Those cows served to the pedigree stock bull (Starline 1 Carry On) are natural services with due dates being the Vet's best estimate.

The sale includes 40 recently freshly calved autumn calvers with the following calving pattern:

November	14	May	5
October	6	April	1
September	10	March	1
August	9	February	1
July	4	January	0
June	6	December	3

The herd was TB tested on 20<sup>th</sup> October 2024. The herd is vaccinated for IBR and monitored for BVD, Lepto and Johnes.

### Auctioneer's Comment

I have had the pleasure of working with Tracey & Richard Martin for my entire career and I know the decision to sell the cows has been a very difficult and reluctant one which has been made necessary by health issues. The herd is on a very low input system and there is significant opportunity to improve yields and production. The cattle have the genetic potential and breeding which are capable of adapting to a wide variety of feeding regimes and systems.
