### Hollafrench

Phil & Anne Jose

wp.and.ca.jose@farmline.com  
07798 520675

I've had the pleasure of being the main vet at Hollafrench for the past nine years, following my colleague, Rupert Kirkwood's retirement. Anne and Phil have been fully dedicated to maintaining the highest levels of welfare whilst developing a fantastic performing herd of cows. The herd being awarded Master Breeder status earlier this year.

I've always enjoyed my monthly visits to the farm, appreciating the quality of stock, the high-standard of husbandry provided for cows right down to the newborn calves.

With the herd being fully closed fortunately there have been very few disease issues to deal with. The herd are vaccinated for IBR, BVD and Leptospirosis. Johne's in the herd is extremely low and the herd has had no TB reactors for 22 years.

Housed fulltime on deep sand cubicles the cows have been able to perform to their potential giving impressive yields whilst maintaining high constituent levels. Lameness and mastitis rates are well below average and fertility has been consistently good.

I am certain that any buyers will be happy with their purchases.

On behalf of the practice I would like to wish Anne and Phil the best of luck for the future.

Dan Forrester MRCVS  
Senior Vet at Penbode Vets

## FOREWORD

It is with great pleasure, we introduce you to this catalogue for the dispersal of the HOLLAFRENCH herd on behalf of Phil & Anne Jose. As auctioneers and dairy cow enthusiasts, every now and then we stumble across a little known herd of cows that leaves you taken aback by how good they are, and this was most definitely the case when we first visited Hollafrench. Phil's dedication and skill at breeding cows over some forty or so years is clear to see both in terms of the conformation and also the production credentials of the cows and all this achieved on a less than easy farm. Since our initial visits some months ago the Jose's have now been awarded Master Breeder, a fitting tribute as the herd approaches dispersal.

The sale features over 130 milking cows and heifers together with over 100 youngstock of all ages. Sires have always been selected, not just for conformation, but also with emphasis on production and modern management traits. The herd catalogued contains 45 EX & 43 VG cows with plenty of milking heifers destined to achieve these grades in time. When you glance through the pedigrees the catalogue contains many high scoring individuals and most impressively many that carry multiple generations of home bred EX cows and indeed up to 7th generation of EX! When you see the quality of the younger milkers together with the continued use of the very best modern sires, it surely cannot be overstated, the future potential the herds youngstock will also offer.

Cows receive a simple TMR based on grass and maize along with modest concentrate use and achieve a commendable annual average of almost 10,000kg (9829kg) at 4.2 fat, 3.30 protein with current SCC 143. It cannot be over emphasised that these cows are capable of achieving much higher production on more intensive systems.

Finally, we would like to draw your attention to the vet notes in the catalogue and particularly the fact that the herd has had no TB reactors in 22 years.

It only remains to extend our thanks to Phil & Anne for their instructions to conduct their dispersal and we wish them all the best in their future endeavours.

**Norton & Brooksbank and Kivells**

## VENDORS FOREWORD

Milk production started on Hollafrench in 1964 with commercial Friesians, with grading up in the late 80's after a quiet but diplomatic visit from Abbie Cotton, Field Development Officer! At that time it was a case of learning on the job and developing a herd within a quota environment. I found nothing better than visiting other herds and watching the early use of Holstein bloodlines. This encouraged the gradual introduction of new families which included the purchase of Wilcove Storm More EX94(6E) as an 84 point heifer, who started our More family and developed into a fantastic powerful cow. Other families introduced include Fleur, Torch, Dreamer Bubble and Swallow, all of which have developed well.

Surplus heifers and cows used to be sold, but in recent years we have opted to just breed enough replacements for our own needs, due to the reduction of margin between rearing costs and sale price. Instead, we have used sexed semen on selected cows and heifers with the remainder receiving widespread use of beef semen, mainly Charolais to capitalise on the value of these calves. Development of the herd has been hugely aided by narrowly avoiding Foot-and-Mouth and also not having any TB reactors for over 22 years. This has allowed continuity of family lines and helped towards our Master Breeder award, which was both unexpected and a huge honour. As the time has come to retire, one of the main regrets is not seeing the youngstock through to maturity. I know there will be some super cows amongst them that should do well in any system.

Finally, I would like to thank our two main vets over the past 35 years, namely Rupert Kirkwood and Dan Forrester from Penbode Farm Vets for their help and advice. Also our current team of Rob Gooding 5 years, Laura Barrs 7 years and Geoff Petherick 14 years for their loyalty, reliability and friendship. Also Lynden and the team at Holstein UK for their advice over the years and also our good friend Ian Bell MBE for all his support.

Phil

## **EXPLANATION OF ABBREVIATIONS AND SYMBOLS**

The following abbreviations: ABI- Alphabetical Bull Index; ACC- Average Cell Count; AI- Artificially Inseminated; CC- Heifer Calf; ET- Embryo Transplant; LC- Last Calf; S- Served.

TYPE CLASSIFICATION SCHEME- Where classifications are abbreviated in the catalogue the following are the abbreviations used:

(Ex)-Excellent; (VG)-Very Good; (GP)-Good Plus; (G)-Good; (F)-Fair; (P)-Poor

METRICATION: All tabulated milk yields are in kilograms.

## **ENTRY TO SALE PREMISES**

All visitors please note that entry to the sale site is at your own risk. No liability whatsoever can be accepted by the vendors or the Auctioneers.

## **ANIMAL WELFARE**

All purchasers please be aware of the implementation of EU Welfare in transport Regulation (EC) No 1/2005 - when hauling livestock.

## **PAYMENT**

Payment must be made in full to the Auctioneers on the sale day. No lots may be removed from the sale premises without an auctioneers pass confirming payment.

Prospective purchasers who have not traded with the auctioneers before are requested to make themselves known prior to commencement of the sale and confirm arrangements of payment.

## **AGENCY BIDDING**

Any customer at the sale bidding as an Agent on behalf of a third party is deemed by the auctioneers to be the purchaser and subject to the terms of the conditions of sale, unless written authority from the person(s) on whose behalf they are bidding is presented to the auctioneers before the sale commences

**Telephone Bids:** Please note that any potential buyer wishing to bid over the telephone must register with the auctioneers before the sale.

**Terms:** All purchasers please note that accounts must be settled at the close of the sale.

## **BREEDING GUARANTEE**

All cows and heifers that are stated in the catalogue of sale to have been served not less than ten weeks before the date of sale, or to have been running with a bull between dates (the later of which is not less than ten weeks before the sale) will be guaranteed by the vendor to be in calf either to the date or one of the dates of service if more than one is stated, or to a service between stated running dates and to the bull stated in the catalogue of sale unless any alteration is announced by the Auctioneers at the time of the sale. Should any animal prove not to be in calf, any claim under this guarantee must be made to the auctioneer in writing within 7 weeks of the date of sale. Should any animal which is declared to be in calf prove not to be in calf to the date or one of the dates of service or to some date within the running period or periods or to the bull stated as above any claim must similarly be made immediately any evidence in support of such a claim is available and in any case not later than 28 days after the date on which the animal was due to calve according to the date or dates in the catalogue of sale.

## **UDDER WARRANTY**

Unless otherwise stated or announced, any cow in calf or in milk or any heifer in milk at the time of the sale shall carry a guarantee that she is sound in udder and teats at the time of sale, but no claim under such guarantee can be entertained unless made to the Auctioneers within an hour of the close of the last lot except in the case of Herd Dispersal Sakes or Breeders' Home Sales when the guarantee period is extended to two hours after the close of the sale of the last lot. If the Auctioneers are satisfied that the udder is not sound, then the sale, at the discretion of the vendor, may either be cancelled or an adjustment in the price paid agreed between vendor and purchaser.

**NOTE - At Herd Dispersal or Home Breeders' Sales the Vendor must provide adequate facilities for udders to be inspected and for adequate milking facilities to be available for the Purchaser in accordance with the warranty.**

## **DATA PROTECTION**

### **Introduction**

The EU General Data Protection Regulation ("GDPR") came into force across the European Union on 25th May 2018 and brings with it significant changes to data protection.

### **Our Commitment**

**Norton & Brookesbank Ltd** are committed to ensuring the security and protection of the personal information that we process, and to provide a compliant and consistent approach to data protection. We have always had a robust and effective data protection program in place which complies with existing law and abides by the data protection principles. However, we recognise our obligations in updating and expanding this program to meet the demands of the GDPR and the UK's Data Protection Bill.

**Norton & Brookesbank Ltd** are dedicated to safeguarding the personal information under our remit and in developing a data protection regime that is effective, fit for purpose and demonstrates an understanding of, and appreciation for the new Regulation. Our preparation and objectives for GDPR compliance have been summarised and copies are available from our office upon request.

**SALE TO COMMENCE PUNCTUALLY AT 11.00 a.m.**

~ NOTES ~

~ NOTES ~

## CONDITIONS OF SALE

1. The biddings to be regulated by the Auctioneers, in terms of 'guinea' bids and multiples thereof, each guinea to be equivalent to 105 new pence (£1.05); if any dispute should arise, the lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give a reason for such action.
2. The Purchaser to give his name and dwelling place and pay for all lots at the close of sale. No lot or lots shall be removed from the sale premises until paid for, and pass-out slip obtained from the Auctioneer' clerk.
3. Notwithstanding the foregoing and the following Condition 4 each and every lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective Purchaser or Purchasers thereof and shall be removed from the sale at the Purchaser's expense within a week of the sale.
- 4.1. If any lot or animal (s) is not paid for in cash under Condition 2 above but payments is made by cheque or other form of negotiable instrument then the animal(s) shall remain the sole and absolute property of the Vendor as legal and equitable owner until such time as all money due to the Vendor has been paid by the Purchaser, Payment shall unless otherwise agreed be made to the Auctioneers and shall not be deemed to have been paid until any cheque or other negotiable instrument has been cleared by the Auctioneers Bankers and the following further provisions contained in Condition 4 shall apply.
- 4.2. The Purchaser acknowledges that he is in possession of the animal(s) as bailee for the Vendor until such time as the animal(s) has been paid for or pursuant to the provisions of Condition 4.1.
- 4.3. The Purchaser undertakes to house any animal on his premises separately from his own and those of any other person and in such a manner which makes them readily identifiable as the Vendor's.
- 4.4. The Purchaser's right to possession of such animal(s) shall cease if he does anything or fails to do anything which could entitle a receiver to take possession of the animal(s) or which would entitle any person to present a petition for the winding up of the Purchaser.
- 4.5. The Vendor or the Auctioneers may for the purpose of the examination or recovery of animals enter upon any premises where they are housed or where they are reasonably thought to be housed.
- 4.6. If the Purchaser shall sell on the animal(s) the entire proceeds shall be held in trust for the Vendor and shall not be mingled with any other money paid into any overdrawn bank account and shall at all times be identifiable as the Vendor's money.
- 4.7. The Purchaser warrants that he is not at the time of entering into any agreement to purchase the animal(s) insolvent and knows of no circumstances which would entitle any creditor to appoint a receiver or to petition for winding up or to exercise any rights over and against the purchaser's assets.
- 4.8. Without prejudice to any other to any right or remedy of the Vendor or the Auctioneers of the Purchaser shall be in breach of any of the conditions set out in this Condition 4 or any of the other conditions herein contained the Vendor or the Auctioneers shall have power to resell the lots retaining any surplus and charging any deficiency or expense to the defaulter or Purchaser.
5. All statements in the catalogue or made by the Auctioneers at the time of the sale, also the identification of the animals, are the entire responsibility of the Vendor. The Auctioneers take no personal responsibility for the correctness of any such statement or identities.
6. All statements made either in the catalogue or any made by the Auctioneers at the time of the sale relating to Tuberculin or any tests to be taken as statements of fact only. No such statement shall guarantee the Purchasers of any animals against loss arising through subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
7. Neither the Vendor nor the Auctioneers will be responsible for any accident through fire or any other cause whatsoever, nor for any damage done by animals prior to, during or after the sale.
