USING MARTEYE ONLINE BIDDING

- To use this service you either:
 - Download the Marteye app on your smartphone,
 - Or visit kivells.marteye.ie on a computer.
- You then need to click Sign Up & enter your full details.
- Once you have done this you need to click the Join button.
- We then get a notification that you are trying to register.
- All potential purchasers MUST contact Mark Davis on 01392 251261 in order to be approved.
- Once you are approved you are ready to bid during the sale.
- All registrations MUST be made by Monday 7th April. If you do not make contact with us you may not be approved to bid.
- If you only wish to watch a sale you DO NOT need to register. To do this either:
 - Download the Marteye app on your smartphone
 - Or visit kivells.marteye.ie on a computer
- Registration is only required for people wanting to bid.

Livestock Notice to Purchasers

Health & Safety – Kivells accept no liability for any damage or injury to persons, livestock, vehicles or plant not arising out of their negligence. Any person entering the livestock market premises does so at their own risk and must comply with the requirements of any Health and Safety notices. All persons entering the livestock markets premises are hereby given notice that there are potential hazards due to the type, penning, herding, loading and unloading of livestock and vehicle movement. Caution should be exercised and children must be fully supervised at all times. Kivells reserve the right to refuse admission to any person or vehicle into the livestock market premises without giving reason. Kivells strongly advise that no persons access the sale ring, pennage or livestock passageways during the sale or whilst animals are being moved through passageways. Should any person decide to enter these aforementioned areas they do so entirely at their own risk. Any incidents or accidents in the livestock market premises should be reported to Kivells market office immediately.

Biosecurity and Livestock Welfare – All persons entering Kivells livestock market premises must comply with all current Biosecurity legislation, rules and conditions. All persons should be in clean clothing and disinfect footwear upon entry and exit from the livestock market premises. Hand wash facilities, disinfectant boot dips and brushes are available and should be used. Vehicles used to transport animals to or from the livestock market premises must comply with current cleaning and disinfection legislation. All vendors, purchasers, agents and hauliers must comply with all current legislation governing the welfare of livestock whilst at Kivells livestock market premises or in transport to or from the livestock market premises. Any concerns over Biosecurity and Animal

Welfare should be reported to Kivells Biosecurity and Animal Welfare officers, whose details are located in the Kivells market office.

Registration – In order to bid, all **new** Buyers are required to register before the auction, at the Kivells market office or as otherwise advised by the Auctioneers. All such Buyers will be asked for two forms of identification and a credit reference will be required. Acceptable identification includes Driving Licence/Passport together with a Utility Bill/Proof of Address/Business Letter Heading/Business Card. The Auctioneers reserve the right to request a deposit ahead of any purchase or during sale proceedings and to refuse registration or any bid or bidder without giving reason. New Buyers are strongly advised to contact the Auctioneers well in advance of the sale.

Payment – All Lots must be paid for on the day of the Sale by the Buyer prior to any removal or consolidation, unless alternative arrangements have been agreed with the Auctioneers. At the fall of the hammer the highest bidder will be deemed to be the Buyer and transfers of purchases will only be permitted with prior approval from the Auctioneers. Any payment is to be by a means approved by the Auctioneers. Our preferred payment terms are debit card or cash and Kivells reserve the right to stipulate payment by these methods. Kivells may also accept bank transfers and cheques with prior approval. Our Bank Account details are: Sort Code 56-00-49 Account Number 32376359.

Payment in Cash – In order to comply with money laundering regulations we cannot accept Cash payments above the maximum permitted at the time of sale. The maximum varies according to exchange rates and currently it is circa £9,000. Buyers are advised to check with the Auctioneers ahead of the sale.

Conditions of Sale – It is strongly recommended that Bidders and Buyers visit **Kivells.com** and read the full Conditions of Sale produced by the Livestock Auctioneers Association (LAA) ahead of the sale. Unless advised otherwise you will be bidding and buying under these Conditions and you will be obligated to abide by these Conditions and these Notice to Purchasers. The LAA Conditions of Sale are also displayed in Kivells market office. Clauses 12 to 19 inclusive relate mainly to the Purchaser. This catalogue may also contain reference to Warranties as defined by the LAA Conditions of Sale. Warranty issues will not be considered if payment in full has not been received.

Risk – All livestock are at the risk of the Vendor before they are sold and at the risk of the Buyer when they are sold (fall of the hammer). It is strongly advised that Vendors and Buyers ensure that their insurance policies cover livestock at market premises and that Buyers have immediate cover for animals purchased.

Removal of Lots – Lots can only be removed once payment has been made in full and/or a pass issued by the Auctioneers. All Lots need to be cleared from the sale premises by 5pm on the day of sale unless otherwise agreed with the Auctioneers.

Descriptions of Lots – Buyers should satisfy themselves prior to making bids as to the condition of any Lot and should rely on their own judgement as to whether the Lot accords with its description. All Lots are sold under the Livestock Auctioneers Association Conditions of Sale as referred to above to include the following two clauses:

Statements of Fact – Unless otherwise announced all statements of fact made in any sale catalogue or at the time of sale regarding the breeding of any animal, its health status or other tests carried out on any animal are statements of fact made by the Vendor and not the Auctioneer and the Auctioneer accepts no responsibility for any misstatement nor does he nor the Vendor accept any responsibility for any subsequent reaction by an animal sold to any relevant test administered after the sale.

Liability of The Auctioneer – The Auctioneer acts in all respects only as agent for the Vendor and no warranty is given by the Auctioneer or his employees or contractors, and none shall be implied, as to title, description or the quality of any Lot. Neither the Auctioneer nor his employees or contractors shall be liable to the Purchaser in any respect for any defect of title, error of description or imperfection or for any announcement or statement concerning any Lot offered for sale whether made orally or in writing (whether in a sale catalogue, order of sale, advertisement for the sale or otherwise) and whether given before, during or after the sale, nor shall he incur any liability in relation to any dispute between a Vendor and Purchaser.

Bidding Form – The Auctioneers will bid on your behalf if written instructions are received on the form supplied, or an email or text has been received confirming instructions and acceptance of the terms set out in the form and adequate time is available to enter such bids. The Auctioneers reserve the right to request a deposit as part of the instruction process. It is entirely at the discretion of the Auctioneers whether other forms of bids are acceptable however in every case there is no liability on the auctioneers.

Refreshments and Facilities – Canteen and toilets are on site.

A COMPANY LIMITED BY GUARANTEE

(INCORPORATED 1891)

Registered Charity No. 254166

Company No. 35107

SPRING SHOW & SALE 2025

PRESIDENT (to be elected at AGM Tuesday 8th April)

Mr Bob Bostelmann, Rufford, Offley Hay, Eccleshall, Staffordshire

JUDGE

Mr Robert Hadley, Chesterton Fields Farm, Fosse Way, Chesterton, Leamington Spa,
Warwickshire

VETERINARY INSPECTORS

Duncan Findlay, MRCVS Vale Veterinary Group, Cullompton, Devon

FRAME SCORES

Frame score measurements will be taken by Mr R W Camp

CHIEF STEWARD

Mr R Shinner, Devon

BREED SECRETARY

Mr Andy Ryder

Registered Office: Holme House, Dale, Ainstable, Carlisle CA4 9RH

Telephone: 01392 447494 E-mail: info@sdhbs.org.uk

The information given in this catalogue has been produced from information submitted to SDHBS by breeders and responsibility for its accuracy cannot therefore be assumed by the Society.

All DNA certification is issued by a testing laboratory from samples submitted by breeders and their representatives, and therefore the SDHBS is not responsible for the accuracy of any declarations of DNA status.

**Judging commences at 08.30am prompt beginning with Females.
The following competitions will be judged:**

FEMALES

**ALL ANIMALS WILL BE SOLD IN CATALOGUE ORDER EXCEPT FOR THE CHAMPION AND RESERVE
CHAMPION WHICH WILL BE SOLD AT THE START OF THE FEMALE SECTION
LOT 40: CHAMPION FEMALE and LOT 41: RESERVE CHAMPION FEMALE**

THE WADDETON PERPETUAL CUP

The Tully Partnership having won the Sexton Cup outright have very kindly presented the above Cup for the Female Champion judged on inspection only.

2024 Spring Sale The Tully Partnership
2024 Autumn Sale K V & M A Plain

THE KESTLE PERPETUAL CUP

Mr R K Rundle having won the Alger Cup outright has very kindly presented the above Cup for the Reserve Female Champion, judged on inspection only.

2024 Spring Sale G W J & L F Pluess
2024 Autumn Sale The Tully Partnership

THE GREENSLADE PERPETUAL CHALLENGE CUP

Messrs W R J Greenslade & Co have very kindly presented the above Cup, to be awarded to the Best Pair of Females bred by the Vendor.

2024 Spring Sale Not Awarded
2024 Autumn Sale P S & A P Rowe

THE COLCHARTON PERPETUAL CUP

The Tully Partnership having won the Colcharton Cup outright, Messrs R J & C J Edwards have very kindly presented the above Cup for Best Polled Female, judged on inspection only.

The Colcharton Cup was most recently won by:

2024 Spring Sale Not Awarded
2024 Autumn Sale The Tully Partnership

THE BRISTOL SALES CENTRE PERPETUAL CHALLENGE TROPHY

Mr K Sherrill has very kindly presented the above Trophy for the Best Female gaining most points on inspection and performance, for Breedplan recorded herds. Inspection points up to a maximum equivalent to the highest individual performance points. Performance points to be equivalent to double the difference between the value of the animal's Suckler Replacement Index and the value of the breed average Suckler Replacement Index.

2023 Autumn Sale A Scott
2024 Autumn Sale The Tully Partnership

BULLS
ALL ANIMALS WILL BE SOLD IN CATALOGUE ORDER, EXCEPTING
LOT 1: CHAMPION BULL and LOT 2: RESERVE CHAMPION BULL

THE ROSKYMER SUPREME CHAMPION CUP – LOT 1

Messrs W W Williams & Sons have very kindly presented the Roskymer Cup for the Champion Bull, having won the Sexton Cup outright. For this Sale, the Cup shall be awarded for the Best Bull judged on inspection only.

2024 Spring Sale P S & A P Rowe

2024 Autumn Sale P S & A P Rowe

THE ROWE CUP – LOT 2

The Rowe family have very kindly presented the Rowe Cup for the Reserve Champion Bull, to be judged on inspection only.

2024 Spring Sale R J Throssell & J A T Warwick

2024 Autumn Sale A Scott

THE THORNTON CUP

Messrs. John Thornton & Co have very kindly presented the above cup to be awarded to the vendor gaining the highest number of points. Each bull will be judged on inspection and performance. Each bull will score 1 point for each point above breed average in QBI, this will be added to the points given by the judge on inspection of each animal. The judge will have a spread of point equal to the spread of the performance's points of the bulls forward for the trophy. The bulls will be lined up in the order of the judge's inspection, they will then be pointed as followed. The first placed bull will be awards the same point as the highest score in the performance section and the last bull will be awarded the same points as the lowest score in the performance section. The judge can then score all the other bulls at their own discretion between those two scores. The bull with the highest total of its two scores will be the winner. In the case of a tie the bulls with the highest performance section would be placed higher.

2024 Spring Sale R J Throssell & J A T Warwick

2024 Autumn Sale P S & A P Rowe

THE MACFARLANE CUP

Mr I & Mrs G Macfarlane have very kindly presented the above Cup to be awarded to the Best Pair of Bulls bred by the Vendor.

2024 Spring Sale P S & A P Rowe

2024 Autumn Sale C J Page

THE POLLED SOUTH DEVON PERPETUAL CUP

R J & C J Edwards having won the Cup outright, have very generously represented it as a Perpetual Cup. The Cup shall be awarded for the Best Polled Bull judged on inspection only.

2024 Spring Sale R J Throssell & J A T Warwick

2024 Autumn Sale C J Page

THE CIBA-GEIGY PERPETUAL TROPHY

This Trophy was very generously donated by Ciba-Geigy Agrochemicals and is awarded to the exhibitor gaining most points at the Spring and Autumn Society Sales during the year.

2024 Sales P S & A P Rowe

HEALTH DECLARATIONS

Information regarding health status, testing, and declarations are as at time of catalogue publication.

HEALTH DECLARATIONS

A Health Declaration signed by the Vendor is required for each herd. Information taken from this Declaration is included under the Index of Vendors below, which relates to the herd's health status, TB testing, its Johnes risk level, and to BVD testing of the individual sale animals. A copy of the Declaration with full information is attached to each Vendor's group of pens.

BOVINE TUBERCULOSIS (TB)

All vendors have signed a Declaration stating that the animals they have entered in this Sale have been TB tested within 60 days prior to the date of the Sale. Bovine Viral Diarrhoea (BVD) It is an obligatory requirement of the Society that each Sale animal is from a herd that is accredited free of BVD under a CHeCS health scheme **or** has been tested negative for the BVD antigen. **All** Sale animals must also have completed a BVD vaccination course at least one month prior to the Sale and (for heifers) at least one month prior to service.

JOHNES

It is NOT a requirement that animals must come from Johnes-tested herds.

Definition of levels within the Johnes' Disease Accreditation Programme (CHeCS)

Level 1: Herds must have had three consecutive clear herd tests at annual intervals. The first of these cannot be sooner than 12 months following the identification of a Johnes' disease reactor in the herd. Level 1 will be further defined by stating the year in which the herd achieved level 1 accreditation.

Level 2: This applies to all herds that have had an initial, or two consecutive, clear tests, but are yet to achieve level 1 status. The first of these clear tests cannot be sooner than 12 months following identification of a Johnes' disease reactor in the herd.

Level 3: These are herds that have reactors identified within the herd, but the number of reactors must not exceed 3% of the herd eligible for testing in the Johnes' programme (cattle two years of age and older). In herds with fewer than 33 eligible animals no more than one of these is a reactor.

Level 4: These herds have more than 3% of eligible animals identified as reactors, or in herds with fewer than 33 eligible animals more than one of these is a reactor.

Level 5: These herds may be carrying out a testing programme but are not adhering to the mandatory requirements of the programme.

NEOSPORA

Vendors of females have signed a declaration that neither their lotted females nor the dams of those females have ever tested positive for neospora.

Definition of levels within the Neospora Disease Accreditation Programme (CHeCS)

Level 1: Herds that have had three or more clear consecutive annual herd tests

Level 2: Herds that have had one or two clear consecutive annual herd tests

Level 3: Herds where less than 5% of the eligible animals were positive

Level 4: Herds where more than 5% of the eligible animals were positive

Level 5: Herds that are not complying with the CHeCS rules for the Neospora programme

Disclaimer: The health information above is as supplied by or on behalf of the breeder. The health status of individual animals may differ from the herd declaration. The responsibility for the accuracy of the information rests solely with the breeder and not the South Devon Herd Book Society.

MYOSTATIN IN THE SOUTH DEVON BREED

The Myostatin gene is found in all mammals and influences the production of a protein that controls muscle development. Natural mutations of the gene produce proteins that are less effective at controlling muscle development, which results in increased muscle mass. There are 19 known mutations of myostatin. There are nine known mutations of economic interest, of the myostatin gene in cattle, some of which are breed specific and others which affect more than one breed.

In the South Devon breed 2 genes have been found to be more common and tests are available to determine if an animal has one, both or neither of these. For more details on the pro's and con's of each gene search "Myostatin" online.

UNDERSTANDING SINGLE STEP BREEDPLAN PERFORMANCE

RECORDING

ESTIMATED BREEDING VALUES (EBVs)

The EBV is the best estimate of an animal's genetic merit for that trait. Each breed's EBVs are calculated specifically for that breed, for comparisons within the breed, **and there can be no cross comparison between breeds.**

SINGLE STEP BREEDPLAN adds a further dimension to the calculation of EBVs and accuracy, with genomic information incorporated simultaneously with pedigree and performance data. The analysis takes account of the genomic relationships that exist between all individuals in the genotyped population – which means actual calculated relationships are used rather than "average relationships" based on recorded pedigree.

Accuracy: An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives. **Low accuracies should be treated with caution.** Calving Ease: Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. **Negative EBVs mean more difficult calving whilst positive EBVs mean easier calving.**

Direct: Direct calving ease indicates how this bull influences the birth of its progeny. **High negatives are bad whilst high positives are good.**

Daughters: Daughter's calving ease indicates how well the animal produces daughters that have easier calving. This is an important trait if you are breeding your own replacements. **Again, high negatives are bad whilst high positives are good.**

BIRTH AND FERTILITY

Gestation Length: Gestation Length EBVs (days) are based on AI records and observed natural service. Lower (negative) Gestation Length EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

Birthweight: Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. **The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.**

Scrotal Size: Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. **Higher (positive) EBVs indicate higher fertility.** There is also a small negative correlation

with age of puberty in female progeny ie, the daughters of bulls with larger testicles may come into season at an earlier age.

GROWTH

Milk: 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves. **Bulls with high 200 day milk EBVs have more milky daughters.**

200: 200-Day Growth EBV (kg) is calculated from the weight of the animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages. **The higher the 200 day EBV then the higher the suckled calf or weaning weight.**

400: 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight. **Higher 400 day EBVs indicate earlier maturing progeny with a greater weight at an earlier age.**

600: 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

Mature Cow Weight: Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Moderate or larger EBVs are generally more favourable.

CARCASE

Carcase Weight: Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days. **An important trait for finished cattle production.**

Eye Muscle Area: Eye Muscle Area EBV (cm²) estimates genetic differences in eye muscle area of a 300 kg dressed carcase. **More positive EBVs indicate better muscling on animals.** Fat: Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300 kg dressed carcase. **More positive EBVs indicate more subcutaneous fat and earlier maturity, leading to a higher fat classification in slaughtered progeny.**

Retail Beef Yield %: Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300 kg dressed carcase. **A more positive EBV indicates higher percentage yield for the 300 kg carcase size. This is an important trait in finished steers and heifers.**

QUALITY BEEF INDEX

The South Devon Quality Beef Index is a combination of all traits into a single figure and is a measure of a terminal sire's ability to produce prime steers and heifers for the finished market whilst maintaining calving ease at a reasonable level.

SUCKLER REPLACEMENT INDEX

The Suckler Replacement Index ranks bulls by their genetic potential for the production of female replacements while producing prime steers and excess heifers for beef production, with emphasis on calving ease and maternal traits.

PERCENTILE BANDS FOR 2023 BORN CALVES

(For making comparisons within the breed)

January 2025 South Devon BREEDPLAN - Percentile Bands for all 2023 born animals

Use this table as a guide to compare individual animals with the current genetic level of the breed

PEDIGREE TRANSFER FEES

Transfer fees will be charged to Purchasers requiring Pedigree Certificates, and they will be debited to their account on the day.

Females over 6 months of age: £30 plus VAT

Bulls: £40 plus VAT

DNA TESTING FOR POLLING

DNA testing of pedigree registered bulls is a compulsory requirement of the Society For the purposes of clarification in this catalogue, bulls and heifers that have been DNA tested for poll status are denoted as such under their lotting details.

Heterozygous polled (HP) – will produce both polled and horned offspring

Homozygous polled (PP) – will produce polled offspring only

Animals registered as polled and DNA tested will no longer be inspected to verify their poll status. Please note that an animal with polled status may express scurring and that buyers should satisfy themselves of the animal in question's observable characteristics prior to bidding.

The animal's name will bear the suffix HP or PP or Z to denote poll status.

Vendors Notes: One of the first females offered for sale from Trewint, sired by Lumbylaw Quintus 14. He has had a fantastic show season achieving many Breed and Supreme Championships. Tested negative for Neospora.

NBA

National Beef Association

Serving the British Beef Industry

This sale is held under NBA Auction Terms and Conditions of Sale, incorporating Vendor Bull and Female Breeding Warranties.

Charges will be payable by Vendor and Purchaser for the use of these Terms and Conditions for this particular Sale which is held under the auspices of the South Devon Herd Book Society. The current charges levied by the NBA are £3 per bull and £2 per female. Copies of the Terms are available from the NBA or the South Devon Herd Book Society.

National Beef Association

Concorde House, 24 Warwick New Road, Royal Leamington Spa, Warwickshire, CV2 5JG

IMPORTANT NOTICE TO PROSPECTIVE PURCHASERS

The animals in this catalogue are offered for sale subject to the National Beef Association's standard Terms and Conditions of Sale.

These Terms and Conditions of Sale contain limitations to your rights, and prospective purchasers should appraise themselves of the contents before the sale commences.

They have been drafted to form a fair and reasonable basis for the contract between the vendor and purchaser to give you, as prospective purchasers, confidence in the animals offered for sale. The Terms and Conditions of Sale will be displayed in the Auctioneer's Office in and around the Sale premises on the day of the sale.

They are also available in a booklet which is obtainable upon request from the Auctioneers, and all purchasers will be offered a copy when they settle their accounts.

SOUTH DEVON BREED DESCRIPTION

COLOUR AND COAT

Strong, curly coat of light medium red colour. Any white under-body undesirable particularly in front of the navel. Hide loose and pliable.

HEAD

Broad and kindly in appearance, with broad and uniformly pink nose and muzzle, free from blue (blotches) and smut (black hair around lips). Horns, if present, should be white or yellow and curve downwards. Ears set well forward and of a good size.

SHOULDERS

Not prominent, blending neatly with a deep body.

BODY

Deep and full in girth. Ribs well sprung, even and extending well back along the spine. Deep in the flank giving a level underline and not an extended gut. Back straight with good width extending from behind the shoulders to the loin.

HINDQUARTERS

Rumps long, wide and square on top. The rounds wide and deep to hocks. The tail should be level set and blend neatly into the rumps. It should be strong with a good brush.

TEMPERAMENT

Docile.

BULL

Masculine characteristics with size and flesh to attain 1,200 to 1,500 kgs at maturity. Testicles of substantial and even size and suspended equally. Twisted testicles are undesirable.

COW

Feminine appearance with good size and even flesh. Even shaped, well-attached udder with well-spaced, equal and moderately sized teats.

LEGS AND FEET

Legs showing good bone, flat rather than round below the hock. The hind legs reasonably straight and parallel with hocks well apart; the fore legs not wide apart and all having good sound feet, pointing directly forwards. Even locomotion with parallel tracking.

POST-PURCHASE MANAGEMENT OF YOUNG BULLS

PURCHASE

Buy well in advance to allow time to settle – make it a planned rather than a last minute decision. Recommendation is to buy at autumn sale for early spring use or early spring sale for late spring use or May sale for autumn use. On getting the bull home, isolate him for a month. Check his working capability and health and vaccinate/treat as necessary. Try and minimise stress. Remember, a short working life increases cost. Insurance companies may refuse claims in cases of unsatisfactory management of a bull (see annex to NBA Terms and Conditions of Sale for further management advice).

FEEDING

Young bulls are in forward condition at sale and should be allowed to lose condition gradually – they are still maturing. Dietary changes should not be sudden – try and find out the diet prior to purchase so that a stable rumen environment can be maintained. Forage alone will not be sufficient to maintain a young bull which may be anything up to 1200 kg in weight. Feed concentrates in at least two feeds for one month after purchase. Prior to purchase a bull will likely have been fed on a high concentrate level fed frequently per day. Ideally do not turn out to grass without supplementary feed for at least 4-6 weeks after purchase.

HOUSING

Bulls will have been in individual pens with a lot of human contact (walking/grooming) plus several feeds per day. Do not ignore him post purchase by keeping him in a confined space or tied in a dark shed. Provide him with human contact and allow him to see his surroundings even though he is in isolation. Do not keep him on a slippery floor surface and certainly do not allow him to serve cows on this surface. Look after his feet by trying to keep him on a partial hard surface.

TRAINING

Young bulls are sexually inexperienced. Try and pen bulls where they can see cows/other bulls working. Take a mature cow to him and allow him to serve her several times.

WORKING

Avoid overwork – young bulls are enthusiastic but have low semen reserves. Target 20 cows in the first season.

Try and get him to take a bit of supplementary feed to maintain body condition score around 3. Remove from cows if it is apparent condition is being lost – it will only lead to barren cows. Check he is serving correctly (over 20% of bulls could be infertile or sub-fertile) so keep a watchful eye and check herd three weeks later. If in doubt, pull him out. It is essential to PD cows after bull removed from herd.

ANNUALLY – FOR ALL BULLS

Being fertile one season is no guarantee. Prior to the next season do bull 'MOT' and fertility check in conjunction with vet. Do not trim feet just before use – plan for 6 weeks before. Feet and legs do a lot of work in mating season. Feed 2-3kg concentrates per day prior to mating season to build condition ready for an active season. Adapted from 'Bull selection made simple – a guide for the commercial buyer', published 2011 by SAC and QMS.
